5X Large	55-59	56-58	280+	74" and over

Primal Wear jerseys are engineered for the highest possible performance. To take full advantage of the technical properties of your Primal Wear jersey, the jersey should fit close to the body so that moisture is effectively transported away from the skin. For a looser fitting jersey, please order one size up from the sizes shown in this size chart. Please note that our race cut jerseys are designed with the competitive cyclist body type in mind and have a very snug fit with a cut that tapers to the waist for a fitted look.

Please note that this size chart is for reference only. We encourage you to take advantage of our "fit kit" program to ensure proper sizing. Please contact our sales department for more information.
